MoPA Dashboard — Where the numbers come from

Every chart and number on the dashboard is counted live from the Bill records. Nothing is typed into the dashboard by hand (BRD §8 Auto Reports & Charts).

Chart or number	What it tells you	Data it is counted from	BRD
Where bills are now	Bills at each step of the law-making process	Stage date recorded by a Data Manager	§8, §9
What happened to each bill	Pending, passed, deferred, withdrawn, assented	House decision and President's decision dates	§9, §13
Bills with the Standing Committee: on time?	Inside or past the Committee time limit	Committee referral date. Limit: 30 days (NA), 60 days (Senate)	§8
Bills sent to the other House	Inside or past the 90-day Constitutional limit	Date sent to the other House. Limit: 90 days	§8
Bills waiting for the President	Endorsed, assented, notified, Gazette-published	MoPA endorsement, President's decision, Notification dates	§9
How long bills have waited	Days at current stage	Today minus stage date. Bands 0–15, 16–30, 31–60, 61–90, 90+ (prototype choice)	§16
Pending actions by Ministry / Division	Overdue, replies due, in progress, assented, deferred	Ministry field + deadline and reply status	§13
Article 74 (Private Members' Bills)	Ministry stance and Cabinet consent	Pre-admissibility fields	§8, §9
Month-by-month activity	Registered, passed, assented per month (last 12 months)	Registration, passed, assented dates	§16
National Assembly vs Senate	Bills by House of origin	House of origin field	§9, §16

How a number gets here: a Data Manager records a stage date and reference → the

Prototype note: the figures currently come from sample Bills in the prototype.
